Forecast for Wednesday 14 Aug 2024

Weather: Dry with lengthy sunny spells developing, although tending to be more cloudy towards the southeast of the Park. Low cloud moving into the west of the Park towards the end of the evening. Winds becoming strong during the evening.

Chance of cloud-free hill tops above 800m: 80%, soon becoming near 100%, then 70% in the late evening.

Low Cloud and visibility: Some patches of cloud near higher summits at first, this gradually lifting above summits. By late evening, cloud occasionally covering summits above 500-600m. Visibility good or excellent, but very poor in low cloud covering the hills.
